

WALK FOR LIFE WEEKEND

WALKER PLANNING GUIDE

For we are **God's Workmanship**

created in Christ Jesus for good works...
Eph. 2:10

Problem: The reversal of *Roe* did not end abortion. In fact, abortion numbers may increase as the abortion empire pivots to a new **hub-and-spoke** business model, putting women and their babies at greater risk.

- **Hub:** Partnering with abortion-hub states, the abortion industry is promoting abortion tourism, enticing women to travel to states like NY, CA, and IL for an abortion.
- **Spoke:** The chemical abortion empire, now responsible for 54% of all abortion, is trafficking dangerous and illicit chemical abortion drugs, delivering them to the homes of women in crisis, leaving them to suffer the trauma and complications of chemical abortion alone.

Goal: Double the number of women and babies saved from abortion in 2023 by raising \$912,000.

Plan: CompassCare is leading the national charge to hack the abortion empire's hub-and-spoke business plan by:

1. Increasing infrastructure for in-person, pro-life medical care in abortion-hub states like NY.
2. Equipping pro-life medical pregnancy centers nationwide with twenty-first century telehealth tools (TeleCare), reducing the time it takes to serve a woman considering abortion with a pro-life nurse from 24 hours to 24 seconds.

Walk for Life: Publicly express your pro-life passion through the Walk for Life Weekend, declaring to the world the equal value of every human life because we are all made in the image of God – His workmanship.

Get inspired at the annual Online Rally on Friday, May 5 at 7:00PM (ET), then act on your pro-life passion by attending or hosting an In-Person Walk on Saturday, May 6 at 9:00AM!
