Private Investigator

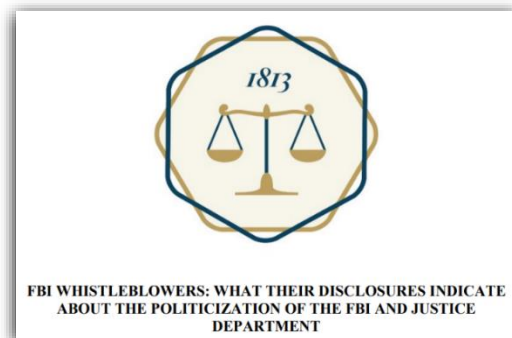

Dear [First Name],

I am sending this directly to you because there are only a handful of people we can trust with this information. This is not a gimmick; it is truly serious. Our team is literally embedded in Antifa right now conducting an important investigation.

Our tax money is funding a revolution against all of us.

The Department of Homeland Security under the Biden Administration is funding seminars at universities around the country to train "anti-Fascists"—that is code for Antifa, the domestic terrorist organization that has led riots in many major cities and done billions of dollars in damage, injured and killed innocent people, attacked police officers, and firebombed pro-life groups.

The FBI, DHS, and DOJ have not only avoided confronting this domestic terror, but as you have likely seen in the news or watched the Senate and House Judiciary committees question why they have turned their vast investigative resources against the politically disfavored—conservatives, Christians, and pro-lifers.

Since federal law enforcement has abdicated their oath-bound duty to provide firebombed Christian pro-life groups like CompassCare with equal protection under the law, my team was asked to step in. To put it mildly, the task is monumental. Since January, we've been investigating Antifa and it is getting dangerous. We actually have a team working undercover inside several Antifa cells—that is why I have reached out to you personally—we must keep this a secret so our team can complete this mission and get out alive.

You read the news. You see things that just don't make sense. It seems our Republic and the rule of law is being actively undermined. For example, Target Stores sell transgender merchandise and openly promote satanism? I am sad to report that is only the tip of the iceberg. Antifa, in its many forms, has permeated many facets of our culture and is gaining power.

According to the Florida Attorney General, Antifa and its militant pro-abortion ally, Jane's Revenge, are "criminal organizations" that must "answer for their crimes". Many terrorism experts have warned that Antifa and Jane's Revenge are dangerous and out of control.

**Attorney General Ashley Moody News Release**  
**Action Against Antifa and Jane's Revenge**

Please consider a gift of any amount today to help us uncover the insurgency and protect America from being destroyed from within.

What you are witnessing is Antifa's (the Democrat Party's new KKK) infiltration of government and corporations.

If I could show you all that my investigative team and I have witnessed, you would be shocked, sickened, and angry. Your investment is key to helping us continue investigating this domestic terrorist group known as Antifa.

Antifa is a loosely-affiliated group of organizations that wield an enormous amount of political power and influence. The foot soldiers for those groups use violence and intimidation to achieve their political goals. You see them at Black Lives Matter riots, protesting for abortion on demand, and at transexual rights marches. Under the name of "Jane's Revenge" they blow-up pro-life clinics that provide free medical care and support to expectant mothers.

Our investigation has uncovered a startling thing: Antifa is not just an army of street thugs rioting and looting. It is a well-orchestrated, multi-national insurgency engaging in a form of irregular warfare which experts call 4<sup>th</sup> Generation Warfare. Al-Qaeda drove the U.S. military out of Somalia using the very same tactics that Antifa is now using in our Nation.

They have infiltrated the upper echelons of government and federal law enforcement, law schools, and medical schools.

Soon they will have an army of not only street fighters but lawyers, judges, and doctors. It is likely, if we don't uncover these criminal actions that within four years our Republic could be an oppressive totalitarian state.

We need your financial help immediately if we are to continue our investigation.

Antifa's stated goal is to dismantle and destroy the socioeconomic system of America to pave the way for global communism. Antifa would prefer a Maoist Chinese dictatorship to America's free Constitutional Rule of Law. They hate everything we believe, including the right to worship God.

Antifa has the full support of the corrupt Democrat Party. The violent attacks are undisguised threats to our liberties. The assault on police, the destruction of property, and attacks on innocent citizens including Christians, Christian schools, churches, and pro-life pregnancy centers is intended as a warning—either you vote their way or there will be violent consequences.

Antifa is a serious threat to our Republic and free people everywhere. They are trying to silence dissent and suppress free speech. They incite violence and chaos. Indeed, that is Antifa's objective—to destabilize society. We must not allow them to succeed.

That is why I am asking for your financial help to finish this all-important investigation. I am not only an author, investigative journalist, and film producer, but I am also leading the investigative team that is working undercover inside Antifa. **This is why CompassCare and I hand-picked your name, sharing this information with only you and a handful of trusted individuals.**

In October, in a report I wrote for the Epoch

Times newspaper, I revealed that "Anarcho-socialist militias" were forming around the U.S. and preparing for war against us. In that report, I cited Rutgers University findings that had concluded the same. That is why we launched the undercover operation that we are currently undertaking, with support from CompassCare.

CompassCare is a nonprofit organization that has been the focus of Antifa attacks and death threats while being ignored by federal law enforcement. They are dedicated to helping us investigate and expose Antifa. We are currently working to achieve a number of objectives with this covert investigation:

- **Tracking** the activities of Antifa members and groups
- **Documenting** Antifa's violent attacks
- **Educating** the public about the threat of Antifa

We need your help to continue our work. **Our goal is to raise \$120,000 this year** to hire more investigators, purchase more equipment, and, when the time comes, expose what we have found to bring down Antifa and save America for our children. Your donation of any amount will allow us to bring these violent criminals to justice.

We have been warning about Antifa for several years. We are the only organization investigating them right now and we are running out of funds. This is a war and we are trying to get you the information freedom-loving Americans need. And now we need your help to do it.

If you think our institutions are corrupt now, wait until Maoist Antifa infiltrates and wields control of everything.

Please send your tax-deductible donation in the enclosed envelope or by going to [CompassCareCommunity.com/Scott-Wheeler](https://CompassCareCommunity.com/Scott-Wheeler). And above all else, please keep this investigation quiet until we finish and are ready to go public.

On behalf of CompassCare, and all freedom-loving Americans, thank you.

God bless,

Scott Wheeler
