6/3/2022 2:59	0	0	pretty sure that's a shitload yeah
6/3/2022 3:00	0	0	availability of products had been pretty bad lately (on account of...it all) but hopefully should be pretty available
6/3/2022 3:01	0	1	Any ideas on how to get around this?
6/3/2022 3:01	0	0	hmm maybe I'll try to order through work tomorrow
6/3/2022 3:02	0	0	It's not the end of the world, so don't put yourself at an unnecessary risk if it would be dodgy.
6/3/2022 3:02	0	0	I'm finding I don't have actually that much oversight in purchasing
6/3/2022 3:02	0	0	so might as well make use of it
6/3/2022 3:02	0	0	That's pretty cool.
6/3/2022 3:02	0	0	If that's the case, we should perhaps chat about a few other key molecules...
6/3/2022 3:03	0	0	agree, let me see if I can get away with this one first and then let's scale up. I think that I have a \$1500 limit before people start asking questions but I need to double check
6/3/2022 3:05	0	0	Again let's not do anything that would put you at risk, but if things are going unsupervised, we should at least discuss possibilities of good strategy.
6/3/2022 3:06	0	0	yeah, let's do some probing. and I'm any case I'm doing far riskier things than petty embezzlement
