## Quotes from Patients Considering Abortion

### MISSION

Because all people are made in the Image of God and are therefore equally valuable, CompassCare is dedicated to erasing the need for abortion by transforming a woman's fear into confidence.

If I hadn't found CompassCare, I think I probably wouldn't have kept the baby.

My daughter wouldn't have been possible without CompassCare

I was going to get an abortion but I ended up keeping my baby.

CompassCare's Patient Satisfaction Rating is **4.9/5**

## Service Impact

### The number of women reached continues growing!

In 2019, the pro-life community in NY only had the capacity to serve 2% of all women at risk for abortion, and even less than that in NYC. Now, CompassCare has the capacity to serve over 10% in NYS, with new offices in the Bronx, Brooklyn and Staten Island. That's 4X growth.

## Fighting for a Place in the Public Square

Following the illegal leak of the Dobbs Case, overturning Roe v. Wade, CompassCare was firebombed in 2022 by violent, domestic extremists. Since then, CompassCare is enduring a steady barrage of attacks in the form of:

"I just want to let you know, we have your back 100%."

## Save Women and Babies: Invest in America's Future

CompassCare is the only ethical medical alternative for women in NYC—now in three of the City's five Boroughs.

Doubling CompassCare's patient load will more than double operating expenses. NYC expansion will cost approximately \$7M, with an ongoing operating expense of \$1M per medical office per borough.
