COMPASSCARE

November 5, 2026

The Honorable Mike Johnson
Speaker of the U.S. House of Representatives
H-232, The Capitol
Washington, D.C. 20515

The Honorable John Thune
Majority Leader, United States Senate
S-230, The Capitol
Washington, D.C. 20510

Dear Speaker Johnson, Leader Thune:

While Democrats celebrate and Republicans debate what went wrong, one question is all-important: What will you do with the remaining weeks of GOP majority?

This may be your last opportunity to secure meaningful protections for innocent human life, religious liberty, and the American family. I respectfully say, get the work done while you still can.

True liberty is the freedom to do what we ought, exercising our God-given rights while respecting the equal rights of others. License demands the freedom to do whatever we want—even at another human being's expense, arbitrated by an ever-expanding government.

Abortion reveals this. In the name of autonomy, government permits one human being to destroy another. A child's right to life becomes subordinate to someone else's "reproductive choice." Similar with transgenderism, the government is asked to answer the question: do the rights of the parent, the school, or the confused teen rule the day?

Democrats advance a socially destructive moral vision through their policies on abortion, sexuality, and personal autonomy. Republicans too often answer with economic arguments while avoiding the moral questions entirely. This leaves the nation to wonder, "What is the GOP's moral vision for America?"

If your moral vision begins with our Creator-endowed rights, your legislative priorities must reflect it. I urge three immediate actions in the remaining weeks of GOP Congressional Majority and a friendly Oval Office.

First, advance the Personhood Clarification Act and the Life at Conception Act.

The Life at Conception Act is before both chambers as H.R. 722 and S. 3667. Despite substantial Republican support—including 116 Republican cosponsors in the House—neither bill has advanced beyond referral to its respective Judiciary Committee. I have spoken with Congressional representatives who indicated the bills may have been intentionally paused until after the midterm election. Now is the time to act.

I have also provided proposed Personhood Clarification Act language to members of both the House and Senate, recognizing every human being as a person from fertilization through natural death. Build on these proposals, resolve constitutional and legislative questions, and advance enforceable protections.

Second, codify essential protections established through President Trump's executive orders.

Identify provisions within Congress's constitutional authority that protect life, religious liberty, parental rights, and border security. Give them the durability of law.

Leftists will seek speedy repeal. Legislation is more difficult to alter than an executive order. Make them fight to undo your good work, preserving not just your own legacy, but the rights of Americans for as long as possible.

Third, demand enforcement of existing federal law.

Use congressional oversight to press the Department of Justice to investigate unlawful abortion-drug distribution and enforce applicable statutes, including the Comstock provisions, consistent with statutory requirements and controlling

court decisions. Charge all co-conspirators in the illicit chemical abortion industry with racketeering, bankrupting the industry, which is a major source of funding for Democrat campaigns and a protector of the sex trafficking industry.

Do not assume restraint today will purchase compromise tomorrow. History has shown the Left will sideline you as soon as they gloatingly claim Congressional Majority. An opposition majority will obstruct President trump's appointments, pursue impeachment, and attack protections you leave unsecured.

The goal of the Democrats is to lock down their control of the Federal government just as they have in New York, California and other deep blue states. Their guiding principle will be, "No Compromise."

Their strategy will include the following:

- The House will revisit Trump impeachment trials after inauguration in early 2027
- Congress will attempt to censor Trump's power particularly, but not the power of the Presidency in general, in anticipation of flipping the Executive Branch in 2028
- Congress will block any Trump judicial or agency head appointments
- Democrat Reps like James Talarico, will continue undermining religious liberty protections, Christianizing sins and vices like abortion, same-sex marriage, non-binary sexuality, limited parental rights, physician-assisted suicide, etc., transforming those issues into mere political opinion rather than positions of religious belief, protected by the First Amendment, thereby undermining and banning the traditional Christian voice from the public square
- Democrats will appear to work with Trump on
    - AI data center deregulation under the guise of security against China for the purpose of enforcing their secular political fundamentalism via hyper-surveillance of citizenry once they have secured the Presidential office.
    - Digitization of currency and other holdings like real estate under the auspices of safeguarding U.S. assets from foreign threats to use economic participation as a means to enforce social compliance
- America will witness an increase in Antifa protests hiding under the mask of grassroots left-wing causes like anti-ICE, Transgender rights, Free Palestine, abortion, racism, sexism, etc.
- Left-leaning corporations will trigger a heavy "market correction," further undermining Trump and Republicans, fomenting a disgruntled electorate, prepping election ground for a 2028 Presidential flip.
- Blue border states will collaborate against the federal government, re-enforcing their shield laws, promoting anti-ICE protests, while opening the borders
- Deep blue states will double down on lawfare against parental rights and pro-life pregnancy centers competing with the abortion industry while turning a blind eye to violence and threats against them from pro-abortion and transgender militants.

Before leaving Washington for Thanksgiving or Christmas, please bring the above-mentioned three priorities forward. If the votes fall short, Americans deserve to know who stood for these protections. If leadership refuses to act, that responsibility rests with you.

The Sun of liberty is setting. You have a final opportunity to make the most of the time. Use the time you have left. For God, for Country, and for the generations of citizens yet to be born.

Respectfully,

Rev. Jim Harden, M.Div.
