Walker Planning Guide

WHO IS SACRED?

...for the kingdom of God belongs to such as these.

Mark 10:14

WALK REWARDS

It costs CompassCare \$570 to serve one woman seriously considering abortion.

Who is sacred? To be sacred is to be holy, set apart, revered. The main character in this epic saga of creation is the thrice Holy Creator (Rev. 4:8). And His unique crown of creation, humanity, is “made in His image” (Gen. 1:27). This means each person is dignified with inherent value, demanding respect and protection (Gen. 9:6). Added to that, each and every person that has ever or will ever live, God had in mind before the foundation of the world (Eph. 1:4). And at the proper time He lovingly “[wove] us together in our mother’s womb” (Ps. 139:13).

Placing an exclamation point on the value of humanity, Jesus, God in the flesh, taught His disciples in no uncertain terms to protect and bless babies.

PROBLEM: The World Health Organization estimates nearly 80 million abortions occur globally every year. If the 50-year average were half that, the total number of babies aborted would equal an apocalyptic 1/4 of the world’s population (Rev. 6:8). Abortion is on the rise in America, where tragically, 70% of women say they felt coerced into it. Most abortions in the U.S. are chemical abortions, sending 1 in 10 women to the ER with severe and life-threatening complications. Furthermore, New York is America’s abortion capital with more abortions per capita than any other state in the nation.

Abortion is wrong always and everywhere because Scripture reveals there are only two things in this world that are sacred: God and people.

GOAL:

- **Educating your community** about the sacredness of each person, both mom and baby, because we are all made in the image of God. Host or join a Walk near you, as together we educate more communities through 150 Hosted Walks!
- **Raising \$752,000 to save more women and babies** (1,320) from abortion in New York’s frontline medical mission.
